An unusual year

The number of grants approved during the year is lower than might have been expected. This is due to staffing shortages in the second half of the year meant that the processing of grants was paused and could only be resumed when the new staff team were in post. The backlog of grant applications is being processed and all applications received in the 12 months up-to 1 June 2026 are currently being processed. We are on course to be making awards in the coming weeks.
